KIRTI DOBARIYA

SOFTWARE TESTING & AUTOMATION

9328212003 dobariyakirti5@gmail.com https://www.linkedin.com/in/dobariyakirti5

I am a BCA graduate with practical training in Software Testing and Automation. I have knowledge of Manual Testing, SQL, Core Java, Selenium WebDriver, JUnit 5, and TestNG. I have practical knowledge of creating test cases, executing test scenarios, identifying defects, and performing functional and regression testing. I also have experience in automation testing using Java, Selenium WebDriver, JUnit 5, and TestNG. I am a quick learner and looking for an opportunity to start my career as a Manual and Automation Tester and contribute to delivering quality software.

EDUCATION

2026 **SOFTWARE TESTING &AUTOMATION-TOPS Technologies**
Professional Trainning

2023-2026 **BACHELOR OF COMPUTER APPLICATION**
(B.K.N.M.U.)

PROFESSIONAL TRAINING

SOFTWARE TESTING &AUTOMATION -TOPS TECHNOLOGIES
-Currently Pursuing

TECHNICAL SKILLS

- **Manual Testing**: Manual Testing, SDLC, STLC, Test Cases, Test Scenarios, Functional, Smoke, Sanity, Regression, Retesting, Defect Life Cycle, Bug Reporting, Severity & Priority, RTM
- **Automation Testing**: Selenium WebDriver, TestNG, JUnit 5, Automation Test Cases, Web Element Identification, XPath, CSS Selectors, Page Object Model (POM)
- **Programming**: Core Java, OOP Concepts, Exception Handling, Collections, File Handling
- **Database**: SQL, Database Testing, CRUD Operations, Joins, Data Validation
- **Testing Tools**: Jira, Bugzilla

SOFT SKILL

- Communication
- Teamwork
- Time Management
- Problem Solving

PROJECT

- **Sauce Demo-Manual Testing**

  Project Description:
  SauceDemo is an e-commerce web application used for practicing and performing software testing. I performed manual testing of the application to verify its functionality, usability, and overall user experience.

  Testing Activities:
  - Analyzed application requirements and prepared test scenarios and test cases.
  - Tested the Login functionality with valid and invalid credentials.
  - Tested product listing, product details, sorting, and filtering functionality.
  - Tested Add to Cart, Remove from Cart, and Cart functionality.
  - Tested the Checkout process, including customer information and order completion.
  - Performed positive and negative testing to identify functional issues.
  - Performed UI and usability testing on different application pages.
  - Executed test cases and recorded Pass/Fail results.
  - Identified and documented defects with steps to reproduce, expected result, actual result, severity, and priority.
  - Performed regression testing after fixing identified defects.
  - Prepared testing documents such as Test Scenarios, Test Cases, Bug Reports, and Test Execution Reports.

  Tools/Technologies:
  Manual Testing, Excel, Jira/Bug Tracking, SDLC, STLC

  Key Modules Tested:
  Login | Products | Product Details | Cart | Checkout | Order Confirmation

  Project Outcome:
  Gained practical experience in creating and executing test cases, identifying defects, reporting bugs, and performing different types of manual testing on a real-world e-commerce application.
